WEED ABATEMENT PROGRAM LAUNCHES ON MARCH 13, 2017

With the recent rains and more on the way, lawns and weeds throughout the City and unincorporated areas of the County adjacent to the City have become overgrown. Un-kept lawns and high weeds are not only unsightly and considered blight and a nuisance but can become an extreme fire hazard as temperatures heat up.

The City is asking all its citizens and property owners to do their part by keeping their lawns well-trimmed and weeds cut below three (3) inches. Vacant lots must be disked throughout the spring and summer, and all weeds or grass growing over or onto sidewalks, curb and gutter must be removed and kept clear at all times.

The City is also asking its citizens to remember that it is the responsibility of the property owner and tenant to remove all trash, debris and weeds from the alley behind each property.

Spring is almost upon us, and with spring comes the season for grass fires. **This mailer will be the only warning given to remove the fire hazards and to keep lawns well-trimmed. Any violation after April 15, 2017 will result in an automatic Citation of $100.00.**

Thank you for doing your part in keeping Corcoran the beautiful haven of the valley.

FOR MORE INFORMATION PLEASE CALL, (559-992-2151 EXT. 225)
