Target: B-27E PROS

Notes:

*You will be instructed when to load/unload your weapon, **DO NOT** load/unload your weapon until instructed to do so by the range master. All weapons will only be loaded with 6 rounds at a time. All courses of fire will begin from the low ready position and will commence, as well as end, on the range masters whistle. The qualification course must be completed using the firearm's standard sights; the use of lasers or lighting systems are prohibited during the qualification course of fire.

**You will be allowed to fire warm up shots prior to beginning the qualification course of fire. Additionally, the range master will guide you through several training/skill builder exercises before you attempt the qualification course of fire. If you fail to achieve a passing score on your first attempt at the qualification course of fire, the range master will spend additional time with you to build your skills and confidence. You will then be allowed to attempt the qualification course of fire once again. If you fail to achieve a passing score on the second attempt at the qualification course of fire, you will have to return on another day to attempt to achieve a passing score.
